

# 300BU30X Battery Burnisher

Featuring **STEADYOne**  
TECHNOLOGY

*Keeps 88% of its original pad pressure after 3 hours of burnishing*

- 1 Traction control with dual heavy-duty, 8" (20,3 cm) mark free wheels.
- 2 Three (3) 12 volt, 228 AH batteries produce up to 3 hours of run time.
- 3 On-board battery charger allows operator to plug in anywhere.
- 4 Enclosed dust control system (cloth or paper bag) for clean operation.
- 5 Unitized roto-molded body with wide area cover panel for easy battery access.
- 6 Small footprint - only 51" (130 cm) with deck tilted - for compact storage.
- 7 Twin rear soft tread 4" (10 cm) caster wheels for a tight turning radius.
- 8 Ergonomic handle and controls for comfortable maneuverability.
- 9 Quiet (only 70 dBA) 2.5 HP (1.9 kW) electric motor.
- 10 80-degree tilt deck for easy pad change.

**Pad Pressure (%) vs. Time**

**Burnish Efficiency**

**SteadyOne™** uses advanced fluid drive technology to maintain constant pad pressure and produce more consistent results. Unlike other machines using spring mechanisms that vary when a metal coil compresses or extends, **SteadyOne™** automatically adjusts the deck as the pad wears to apply the same pad pressure throughout the burnishing operation. Floor care professionals can now get the same one-pass results today...and tomorrow.

**X<sub>2</sub>™** concentrates burnish energy in a much smaller area than a single conventional round pad. This allows the machine to do more work while consuming less energy. A larger area can be burnished with our 3-battery, 30" machine vs. the competition's 6-battery, 27" machine on a single charge.
